## MANCOS CP

### COUNTER PRESSURE FILL TECHNOLOGY

Perfect for packaging carbonated beverages that have higher carbonation or warmer temperature. The counter pressure fill technology uses product pressure regulation during the fill cycle to reduce break-out of CO2 and control foam generation.

**CANS PER MINUTE:** 5-8

**CAN SIZES:** Slim, Sleek, Standard

**LIDS:** 200, 202, 204, 206

**MATERIAL:** SS, anodized aluminum, food grade acetal

**POWER:** 120V or 230V 1-phase (50/60hz)

**DIMENSIONS:** 52" (L) x 26" (W) x 60" (H)

## THE OMNI

### COMPACT, AFFORDABLE, AND ADVANCED

The first canning machine developed from the best technologies of two separate canning machine manufacturers. It offers the best proven technologies from both Twin Monkeys and Alpha Brew Ops' engineering teams and is designed to tirelessly work day after day.

**CANS PER MINUTE:** 25

**CAN SIZES:** Slim, Sleek, Standard

**LIDS:** 200, 202, 204, 206

**MATERIAL:** SS, anodized aluminum, food grade acetal

**POWER:** 120V or 230V 1-phase (50/60hz)

**DIMENSIONS:** 48" (L) x 36" (W) x 71" (H)

## THE MANCOS

### POWERFUL NANO-CANNER

No other canning system of any size can deliver on as many varying can diameters, such as sleek, slim, standard and the Crowler on one single machine.

**CANS PER MINUTE:** 10-15

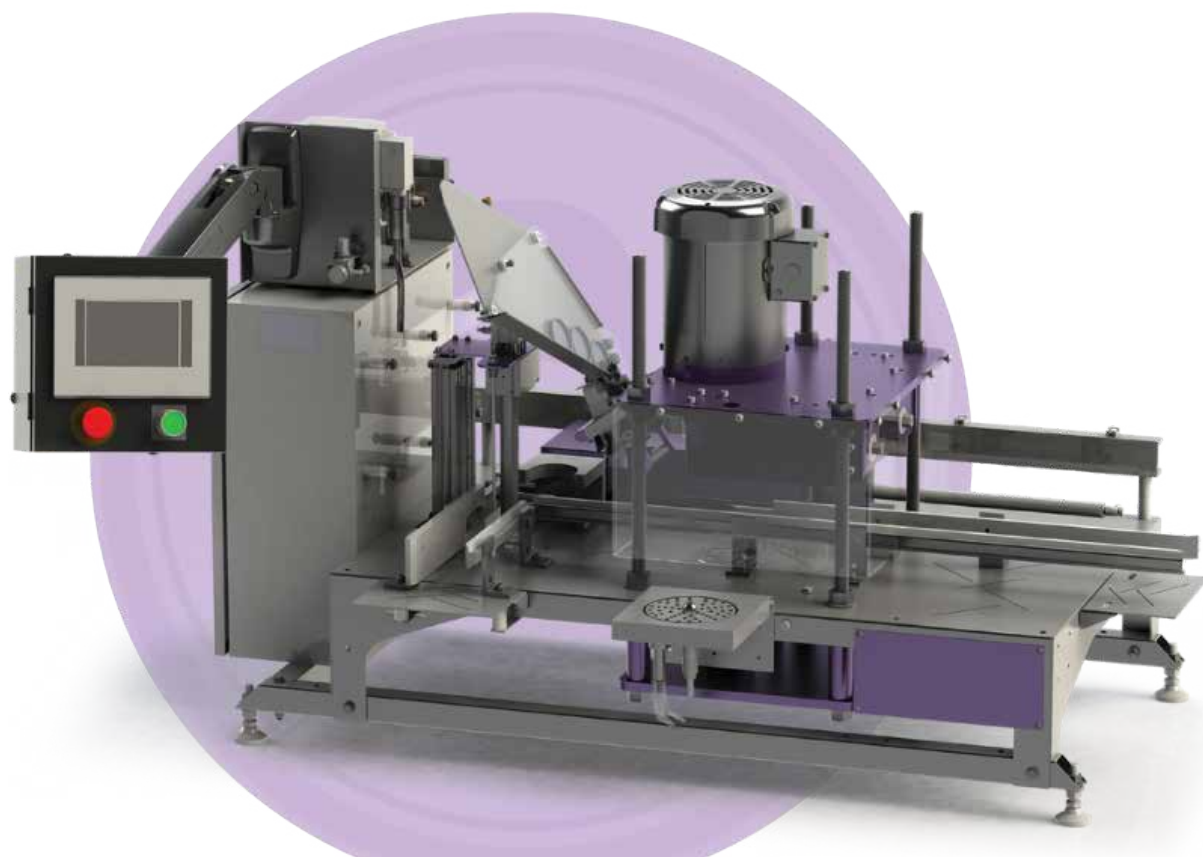

**CAN SIZES:** Slim, Sleek, Standard, Crowler

**LIDS:** 200, 202, 204, 206, 300

**MATERIAL:** SS, anodized aluminum, food grade acetal

**POWER:** 120V or 230V 1-phase (50/60hz)

**DIMENSIONS:** 52" (L) x 32" (W) x 33" (H)

## THE GUNNISON

### MOST POPULAR! ULTRA COMPACT, CUSTOMIZABLE

Ultra-compact footprint that is popular with mobile canning operations, as well as small and medium size beverage producers with limited space.

**CANS PER MINUTE:** 30+

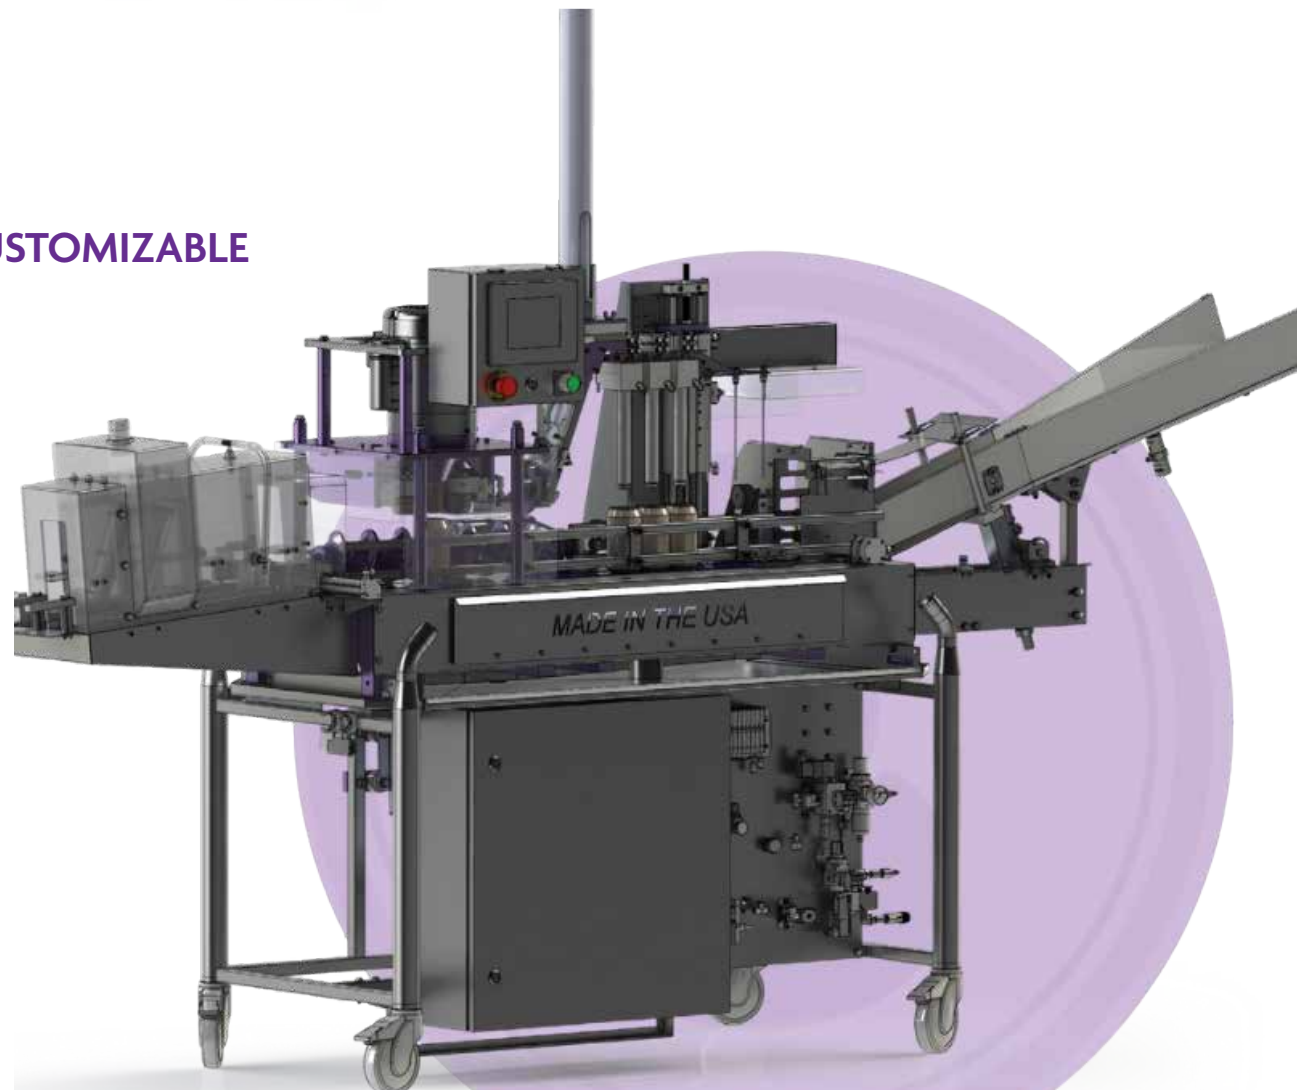

**CAN SIZES:** Slim, Sleek, Standard

**LIDS:** 200, 202, 204, 206

**MATERIAL:** SS, anodized aluminum, food grade acetal

**POWER:** 120V or 230V 1-phase (50/60hz)

**DIMENSIONS:** 52" (L) x 26" (W) x 60" (H)
